

A 30-MINUTE SIGNATURE KEYNOTE BY GABRIEL GOLINDANO

DRIFTING OR THRIVING?

THE DAILY CHOICE THAT BUILDS STATE OF THE ART DEALERSHIPS.

Your numbers look respectable. Units are moving. F&I is hitting most months. The service drive is busy. And quietly — your top closers are sliding, your managers are firefighting, and your sharpest people are starting to plateau. That is the **Drift**. In thirty minutes, your GMs, sales managers, F&I directors and fixed-ops leads get a confrontation with the silent enemy of every dealership — and the framework they will be quoting on the drive home.

WE DON'T DRIFT. WE DECIDE.

THIRTY MINUTES. FOUR CONFRONTATIONS.

This is not a sales-floor pep talk. No motivational posters. No theory from someone who has never carried a number. A doctrinal keynote — built for the GMs, sales managers, F&I directors and fixed-ops leads who suspect their store is operating below its capacity and are ready to hear the diagnosis out loud.

CONFRONTATION 01

THE DRIFT EXPOSED

Why your top closers plateau at month 36. Why your service drive looks busy but isn't building. Why F&I keeps missing — and why the people closest to it can't see it happening.

CONFRONTATION 02

THE ORIGIN STORY

A Miami apartment, 22 years ago, and the single sentence I said in a mirror that began everything. The hard question every dealer principal and GM must answer.

CONFRONTATION 03

THE FRAMEWORK

The Six Pillars every elite operator runs on — and how a crack in one infects the showroom, the service lane, and the back end. A 360° audit your 20 Group does not run.

CONFRONTATION 04

THE MONDAY MOVE

Not a sales contest. Not a Monday morning rah-rah. One non-negotiable every leader walks out with — ready to install on the sales floor tomorrow.
