

A FREE 25-30 MIN KEYNOTE BY GABRIEL GOLINDANO

DRIFTING OR THRIVING?

The Daily Choice That Builds State Of The Art Leaders.

Most teams aren't failing — they're drifting. Respectable on the outside, hollow on the inside. In under half an hour, I confront your room with the silent enemy of every high performer, the story of how I escaped it, and a framework your sharpest people will be quoting on the drive home. No slides full of quotes. A standard.

— WHAT YOUR TEAM WALKS AWAY WITH

- 01 A name for the thing quietly killing their momentum — **the Drift** — and how to spot it before it costs them.
- 02 The **Six-Pillar framework** elite operators run by — a 360° self-audit no one's handed them before.
- 03 One **non-negotiable they install Monday morning**. Not motivation that fades by lunch — a decision.

FOUNDER, PROACTIVATORS • AUTHOR • KEYNOTE SPEAKER

Gabriel Golindano spent 20 years at war with inconsistency before he cracked the code. Today he's the founder of [ProActivators](#), author of [Unleash The ProActivator](#), and creator of the Executive Mindset Workshop — built and proven inside [ChargePros](#), a real operating company, not a coaching brochure. He speaks to teams about the daily war between drifting and thriving — and the discipline architecture that decides it.

"I spent 20 years at war with inconsistency. The morning I chose discipline over my feelings — everything changed."

— WHAT THE TALK COVERS

THE DRIFT EXPOSED

Why your highest performers quietly slide into mediocrity — and why no one around them sees it.

THE ORIGIN STORY

A Miami apartment, 22 years ago, and the single sentence in a mirror that began everything.

THE FRAMEWORK

The Six Pillars every elite operator runs on — and how a crack in one infects the rest.

THE MONDAY MOVE

The one decision the room makes before they leave. Not theory. A non-negotiable.

Read the book that started the movement — [Unleash The ProActivator](#), available on Amazon. The framework, the doctrine, and the full story behind the talk.
